

SALIM HABIB UNIVERSITY

(FORMERLY BARRETT HODGSON UNIVERSITY)

Research Areas

01 Health Biosciences

02 Biotechnology

03 Antimicrobials

M. Phil. in Biosciences program will inculcate in students the desire for life-long learning, the ability to understand concepts for resolving health related issues such as food security and food-related problems, and the required skills for fighting diseases and developing vaccines, medicine, diagnostic tests and strategies to delay ageing and death.

Upon completion of the program, students will have developed the capacity to build a career as an instructor of basic sciences or a researcher in a variety of fields including allied health and diagnostic or research laboratories with respect to bioinformatics, genetics, veterinary medicine and biotechnology.

Placements & Careers:

- Academic Institutions
- Food & Beverage Industries
- Pharmaceutical Industries
- Research Centers
- Diagnostic Labs
- Healthcare Centers

SALIM HABIB UNIVERSITY

(FORMERLY BARRETT HODGSON UNIVERSITY)

MASTER OF PHILOSOPHY (M. PHIL.) BIOSCIENCES

Faculty of Science

Chartered by Government of Sindh - Recognized by
HEC, Sindh HEC/CIEC, PEC & PCP

SALIM HABIB UNIVERSITY

(FORMERLY BARRETT HODGSON UNIVERSITY)

MASTER OF PHILOSOPHY (M. PHIL.)
BIOSCIENCES

If you want to :

- Build a career in Life Sciences;
- Excel in the field of Biosciences; or
- Explore the exciting world of Biosciences;

Come and join M.Phil. in Biosciences at Salim Habib University.

Vision

To make Salim Habib University an icon in the field of Biosciences

Mission

To impart knowledge and practical skills to students which are necessary for understanding molecular mechanisms at the maximum level in order to resolve healthcare issues at national and international levels in both public and private sectors

Why M.Phil. in Biosciences

- Biosciences is a diverse field of study, where knowledge is applied to develop biological solutions that sustain, restore, and improve the quality of life for humans, plants, and animals.
- M.Phil. in Biosciences enables students to address biological phenomena and problems in the interdisciplinary scientific circuit.
- The Department of Biosciences provides an environment that is conducive to learning, while maintaining ethical standards and using a variety of methods for investigating and analyzing, which will help students understand the concepts and difficulties in health-related issues and develop the skills necessary to work on them.

Program Structure

Coursework comprises 2 semesters with 12 credit hours each (a total of 24 credit hours)

Thesis is of 06 credit hours

Eligibility

- Sixteen years of education in the relevant field.
- Minimum of 2.5 CGPA/60% marks in previous education in the relevant field of study.
