**SALIM HABIB UNIVERSITY**  
(FORMERLY BARRETT HODGSON UNIVERSITY)

*SALIM HABIB UNIVERSITY*

*welcomes its students and wishes them the best of luck on the beginning of their journey into higher education. We hope you will have an enjoyable and enriching experience in your time with us.*

## Preface

This handbook has been compiled to convey to our students the facilities available at, and the services provided by, the University. It describes the University's policies and procedures, and the rules governing the student body and all campus-related activities. For your convenience, a copy of the handbook is available on the Salim Habib University (SHU) website at [www.shu.edu.pk](http://www.shu.edu.pk).

Every educational institution has policies and regulations to guide student conduct. It is, however, the self-discipline of students and their self-leadership skills which are the elements essential for the successful completion of their studies, their capacity to function in a fast-paced working environment, and a smooth stay at the institution.

While going through this student handbook, you will learn of and be able to identify key departments, their functions, and key university personnel who will help you throughout your affiliation with SHU. In case you need any clarification, feel free to contact the respective program coordinators of each faculty.

We hope you will have a valuable academic and memorable co-curricular experience at SHU and that you will not only gain wisdom while pursuing your undergraduate education here, but also learn a great deal of things about life itself.

# 1. LEARNING ENVIRONMENT

## 1.1 General

We boast a top-quality academic institution, and are dedicated to creating an environment that is not only conducive to learning, but contains elements that are the right mix of liberty and self-restraint, academics and sports, and discipline and spontaneity. We hope that our stimulating environment results in the blossoming of students into responsible, well-rounded and professionally competent individuals who are able to take on leadership roles in various fields of their choice, establish successful entrepreneurial ventures, contribute to society in every way, and succeed in all they set out to achieve.

## 1.3 Modes of Communication

To remain fully informed of all notices issued by and up-to-date regarding all developments at the University, students are strongly encouraged to regularly check the SHU website, online system, and social media platforms and groups, as well as the notice boards on campus. Furthermore, to ensure prompt dissemination of important information, SHU may take the additional measure of sending SMS to students' cell phones.

SHU has developed a dynamic website and digital presence across various platforms including Facebook, Instagram, Twitter, LinkedIn, and YouTube. Through constant updates across these media, SHU intends to:

- a. Highlight students' achievements and showcase various aspects of student life at SHU.
- b. Provide prompt updates regarding all campus activities, announcements, and other required information.
- c. Present in-depth insights into the SHU community and its activities, including the faculty, academic and administrative departments, renowned speaker sessions, high profile visits, social outreach initiatives, and other projects.
- d. Post news regarding SHU events, developments, vacancies, admissions and much more.

#### 1.4 Non-Discrimination Policy

Here at SHU, we celebrate diversity in all its forms as it contributes to the intellectual milieu of an educational institution of higher learning. Therefore, in accordance with our vision and mission statements, the University does not discriminate against any person on the basis of ethnic origin, linguistic background, caste, color, sex, gender identity, religion, age, race, or disability in admission to, access to, treatment in, or employment in its programs and activities. This commitment is a manifestation of one of our core values: 'Respect & Tolerance'. Every effort is made to ensure fairness and consistency in the University's relations with its students, faculty, and staff. Likewise, SHU expects its stakeholders to comply with all applicable anti-discrimination laws of the land.

#### 1.5 Privacy and Confidentiality Policy

SHU holds sacred the privacy of individuals and the information contained in their records, on occasions where the law sanctions reasonable expectations of privacy. SHU ensures and upholds the confidentiality of its students, faculty and staff alike as far as their financial, academic and employment records are concerned. Our Privacy and Confidentiality Policy is the embodiment of one of our core values, 'Integrity.'

The University is committed to taking every reasonable step to protect the confidentiality and privacy of the information contained in the records of its students. Unless compelled to do so by law, or authorized by the student in writing, the office of the Registrar will not disclose the confidential contents of student records to any party outside the University.

Employees of SHU are permitted access to information contained in student records only if they need to know the information in order to perform their official duties. As a general rule, only employees involved in some aspect of academic administration or student affairs are given access to the contents of student records.

Students have the right to inspect all documents contained in their own record and they also have the right to request that erroneous information contained in their record be corrected.

## 1.6 Health and Safety Management Policy

The health and safety of all faculty, staff, students and visitors is a major concern in the planning and conduct of all University activities and programs, and in the design, construction, modification, or renovation of all SHU buildings and facilities. The same attitude towards safety is also reflected in our labs and their operations.

**1.6.1 Responsibility of Individuals** – Safety is the responsibility of each and every person at the University, both individually and collectively, and all persons share the responsibility of providing and maintaining a safe environment. Each individual is expected to comply with health and safety regulations and University policies, programs and procedures; to perform work in a safe and sensible manner, and to act to ensure the health and safety of themselves, their coworkers, fellow students and all others at the University.

**1.6.2 Deans and Departmental Heads** – Each Dean, and Departmental Head and Chairperson is in charge of ensuring organizational compliance with University policies and with maintaining a healthy and safe environment for all personnel. They are expected to take appropriate action to identify all hazards and to then make sure that all known hazards are addressed properly, and in a timely manner, to avoid any mishaps.

## 1.7 Personal Safety & Institutional Security

Given the circumstances of the city, the safety of individuals has become a matter of great concern for both the concerned individuals and the institution as a whole. To ensure safety, we recognize that a higher measure of institutional security is required. Various measures have thus been taken to improve the quality of surveillance on campus; including the installation of CCTV cameras, walk-through gates, metal detectors and barriers, the deployment of security guards at strategic locations, and an increased emphasis on personal ID card systems. Notwithstanding the placement of these electronic and physical measures, the effectiveness of any security system is dependent on the whole-hearted response of the entire community. Security being our first priority, everyone who is a part of the SHU community is expected to adopt a proactive, vigilant and watchful approach towards the surroundings we work in, the vehicles we use for our commutes, and the physical and web spaces we utilize.

**Note: Remember, by following the given security instructions, you will keep not only yourself safe but also the people around you.**

SHU aims to meet students' needs and aspirations regarding all aspects of university life, of which sports is a crucial element. Sports is considered instrumental in instilling in students a number of desired qualities, such as teamwork, goal-orientation, and a healthy level of competitiveness. For this reason, and in keeping with its philosophy of providing a stimulating campus life, the University has allocated an immense amount of resources to build international standard sports facilities for the student body. These amenities facilitate athleticism and provide students with a wide range of sporting activities on campus, giving them a lot of enjoyable options if they are looking for something fun to do between classes or planning a little escape from the strenuous schedule of academic work. We believe these facilities will provide wholesome and fulfilling experiences to our students, and play a critical role in helping them discover themselves, play to their strengths, identify and overcome their weaknesses, and learn the fine science of team dynamics.

### **2.4 Cafeteria**

SHU gives great importance to the health and refreshment of its students, to which end it has built a large, modern cafeteria. The cafeteria, located behind the administration block, has a vast dining area, and can accommodate around three hundred people at a time. It boasts a variety of food and snack items, with special attention to hygiene. The cafeteria, with its spacious air-conditioned hall and calming ambiance, is an ideal location for students to relax, unwind, and enjoy a delicious

meal. There is also a beautiful open-air dining area available for any who wish to take in the fresh air and relish the weather while they eat.

## 2.5 Information and Communication Services

The University believes in keeping its student body fully updated and informed as to all happenings on campus, to which end it employs the use of various modes of communication, including campus notice boards, the SHU website ([www.shu.edu.pk](http://www.shu.edu.pk)), a comprehensive Campus Management System (CMS) called *Aagahi*, and a dynamic presence on social media platforms such as Facebook, Instagram, Twitter, and LinkedIn. For the conveying of urgent information, the University also sends text messages to students' mobile phones, and posts Announcements on the University website.

## 3. ACADEMIC EXCELLENCE

We aspire to achieve excellence in all the academic disciplines we offer. In order to provide a top-quality, well-rounded education to our students, we have worked to attain a combination ideal for the creation and maintenance of a progressive higher education institution: a highly qualified faculty, innovatively-designed, globally competitive curricula, state-of-the-art academic and extra-curricular facilities, and a wide range of student services.

### 3.1 SHU Faculty

We have a diverse faculty, consisting of a high-functioning team of national and foreign qualified PhD holders, industry experts, and seasoned academicians, who have served at world renowned institutions. All our faculty members have a vast teaching experience with extensive research output, which has proven to be instrumental in stimulating and catalyzing the latent talent of students and helping transform them into high quality professionals. Furthermore, the wide networking circles and connections of the SHU faculty allow them to leverage opportunities for internships and job placements for students. The faculty is also involved in facilitating students on a one-to-one level with not only academic matters but also personal grooming and development.

- **Faculty Program Coordinator**

In order to coordinate with students regarding their daily schedules and various academic issues, each degree program has a designated faculty member for the management of all operational activities. Students can contact them for immediate guidance in case of any course related matter.

- **Faculty Mentorship**

The professional grooming and development of each student at SHU is also a crucial element of education at SHU. For this reason, you will be assigned a faculty mentor, who will be responsible for your professional growth and development, and will also be your link to the SHU management. The University encourages you to develop a close relationship with your faculty mentor, and to keep him or her informed of any particular concerns or circumstances, personal or professional, that may affect your studies or your life on campus.

### 3.2 Quality Assurance

SHU aspires to provide quality education in keeping with high professional and ethical standards. To materialize its commitment of high quality and transparency, the University has set up a Quality Enhancement Cell (QEC), in compliance with the Higher Education Commission's (HEC) directive for the quality assurance of higher education institutions. The University requests its student body to contribute fully to the continuous evaluation of SHU courses and services by filling the provided Online Evaluation Questionnaires. This will not only give the University valuable feedback, but also assist in its course curriculum planning, and the delivery, monitoring and evaluation of teaching, facilitating the continuous improvement of our academic quality and maintaining the University's reputation as a dynamic and progressive institution of high standards.

### 3.3 Centre for Learning and Teaching (CLT)

The Centre for Learning and Teaching (CLT) aims to equip the faculty and students with the best practices prevalent in academic and professional circles through regular interaction with prominent members of the industry and academia. The Centre is meant to foster academic excellence and develop opportunities through scholarly interaction and the promotion of a culture of collaboration between the University and national as well as international academia. For this purpose, it organizes guest speaker sessions, seminars and conferences, ranging from departmental assemblies to university-wide events.

### 3.4 Career Placement and Industrial Liaison Office

The Career Placement & Industrial Liaison Office at Salim Habib University aims to offer students, particularly graduating batches, the right guidance and mentoring in the overall process of securing internship opportunities and job placements in the competitive market along with building strong corporate-academia linkages. The prime focus of this department is to build long-term relationships with corporate, public, and social sector organizations to accustom our students with recent industry practices and enable them to build strong careers in leading organizations.

For smooth career growth, the Career Placement & Industrial Liaison Office is committed to provide students and graduates with a platform to interact with the corporate sector via industry professionals and renowned trainers throughout their time at SHU, in order to professionally groom them and develop their employability skillset, ultimately resulting in the placement of our graduates in reputable organizations.

### 3.5 Student Counseling

In order to facilitate our students and to help them cope with any challenges they face, we have on-board a specialized clinical psychologist, who provides the following services:

- Counseling services to facilitate the well-being of students
- Case-specific counseling session(s), rendered on a needs-only basis, and conducted in a highly confidential environment
- Receipt of complaints from students who believe themselves to be victims of harassment of any kind and the provision of subsequent counseling session(s)
- Training sessions and workshops to instill, upscale, and strengthen soft skills in students
- Any specific counseling recommended for a student by his/her department

To avail themselves of these services, students are encouraged to approach our Counseling Office.

The confidentiality of each student is of prime importance to us and will be maintained as per counseling ethics and practices.

## 4. STUDENT SOCIETIES

SHU wholeheartedly believes in and implements the holistic learning approach, and focuses on the development of students into competent, versatile, and multi-skilled individuals, for which purpose it puts a lot of emphasis on co-curricular and extracurricular activities. To this end, the University has a separate department for the management of Student Affairs, which is responsible for providing the student body with a wide range of opportunities for diverse recreational and social experiences, and organizing a comprehensive program of activities, including sporting events, social networking events, events having to do with fitness, informal recreation and entertainment, and other special events.

A mechanism centered around a well-represented Student Council, student societies, and departmental clubs is in place to facilitate this process.

### 4.1 SHU Student Council

To give the student body a voice and to incorporate students' opinions and suggestions into the management and administration of the University, a Student Council has been constituted, which acts as a representative of the entire student body and is responsible for forming a bridge of communication between the student body and the University management and ensuring that the students' voices are heard and their concerns are resolved or forwarded to the Competent Authorities.

## 4.2 Student Societies and Departmental Clubs

### 4.2.1 Student Societies

SHU presently has a total of seven Student Societies, each operating under the Student Affairs Department and consisting of its own elected body for the management of society affairs. We believe these Societies are the perfect avenue for students to explore their talents, pursue their passions, and discover their leadership abilities, and so we strongly encourage them to participate in co-curricular activities and to compete in inter-university events at a national as well as an international level.

#### 4.2.1.1. Event Society

The focus of the Event Society, as its name suggests, is the planning, promoting, and organizing of events. This society is responsible for arranging exhibitions, seminars, festivals, picnics, parties, and other on-and off-campus cocurricular and extracurricular events. The purpose of these activities is to give students opportunities to engage in healthy social activities, which are helpful in grooming them and developing their personalities and soft skills – interpersonal skills and organizational skills in particular. The Event Society also assists students in identifying and developing their leadership potential.

#### 4.2.1.2 Arts and Literature Society

SHU's Arts and Literature Society aims to polish and enrich students' skills by honing their creative instincts, and allowing them to participate in, learn about, and immerse themselves in literature, history, the arts, and culture.

The activities and events arranged by the society include literary clubs, book clubs, poetry recitals, *Mushairas*, creative writing events, dramas and stage plays, guest speaker sessions, lecture series, and workshops on arts and literature, thematic sessions, art exhibitions (for calligraphy, painting, etc.) and any other events having to do with arts and literature.

Students who have a creative flair and enjoy reading, writing, indulging in productive thought, and exploring the world around them, are encouraged to join the society.

#### 4.2.1.3 Public Speaking Society

The Public Speaking Society intends to provide a platform to students who are passionate about voicing their opinions or those who wish to practice their public speaking skills, and provides plenty of opportunities for them to improve how they communicate, overcome their fear of impromptu speaking, and gain confidence in doing so. The society arranges Model United Nations conferences, debate competitions, declamations, and other enriching events that allow students to engage in oration and experience facing a live audience. Students who get a thrill out of being the loudest voice in the room and those who desire to become more eloquent are encouraged to join the society.

#### 4.2.1.4 Sports Society

The objective of the Sports Society is to promote physical fitness and to inculcate in students qualities such as teamwork and sportsmanship. The society provides opportunities for students to showcase and explore their athletic talents and to hone their sports skills, through the arrangement of various sports events and physical activities. #### **5.4.4 Responsibility as a victim or target**

**5.4.4.1** The University has a zero-tolerance policy towards harassment. It intends to offer its help and support to anyone who is a victim of harassment, requiring them to report, if the behavior of any individual is disagreeable to them, as early as possible.

**5.4.4.2** The following are some useful practices we encourage victims of harassment to adopt:

- Instead of enduring the harassment alone, discuss the matter with someone you can trust.
- Through your words and actions, make it clear to the person who is harassing you that their behavior is disagreeable to you. If you merely ignore or endure the harassment, the situation will not improve. In some cases of harassment, the perpetrators are unaware that their actions are causing offence.
- To formally report any incident of harassment/bullying from a fellow student/SHU staff, first discuss the matter with a trusted faculty member or your faculty mentor, then, if need be, your program coordinator, then Head of Department, then Dean. If further assistance is required, take up the matter with a Student Affairs representative, then, if need be, the Head of Student Affairs, and finally, if need be, the Registrar or Vice Chancellor of the University,

#### **5.4.5 Responsibility as a witness**

**5.4.5.1** Whoever witnesses someone being harassed should offer assistance to the victim of the harassment. If you witness disagreeable behavior, caution the perpetrator about their conduct. When necessary, act as a witness. Listen to what the target of the harassment has to say and be supportive. Do not place the blame on them. Encourage the target of the harassment to visit the university Counseling Service, and offer to accompany them. Due to the very nature of harassment, it is difficult for targets of harassment to come forward, so give them all the support you can. The University Counseling Service is open not only to the targets of harassment themselves, but also to third-party witnesses of harassment.
