

Name: Dr. Rahila Ikram (HEC recognized supervisor)

Designation: Professor and Dean

Qualifications: Ph. D, M. Pharm, B. Pharm

Email: rahela.ikram@shu.edu.pk

Profile:

Dr Rahila is a Gold medalist in B. Pharm. Has an experience of 28 years teaching and research not only in Pakistan but in Saudi Arabia and Malaysia, as well. She has taught a wide range of courses of both at undergraduate and post graduate levels in Medical, and Pharmacy Colleges. Dr. Rahila has special interest in hematology and neuro pharmacology. She has experience of research not only in natural products but also on the clinical aspects of drugs and therapeutics. The practical knowledge of working in clinical setting is reflected in her teaching, directed towards problem/ case-based learning. She has supervised a number of M. Phil and Ph. D students; has published several research publications in both national and international journals; has contributed in a book-chapter on nutrition published by Elsevier. She has also designed the lab manuals of Physiology, Pathology and Pharmacology for undergraduate students. Her name is included in the list of productive scientists of Pakistan, published by PCST.

Research Interests:

- Neuropharmacology
- Hematology
- Clinical pharmacology
