## About the Convocation

The Convocation Ceremony is an important tradition of higher educational institutions. It marks the end of one beautiful journey and the beginning of a foray into the real world for a graduating student. Salim Habib University is proud to host this formal gathering in celebration of students who have completed their academic requirements and have successfully earned their degrees.

## About Salim Habib University

Salim Habib University (SHU) is a not-for-profit institution of higher learning committed to providing quality university education to the Pakistani youth, no matter what their financial constraints.

Established through a charter granted by the Provincial Assembly, Sindh, in 2015, Salim Habib University is supported by The Salim Habib Education Foundation (TSHEF), a not-for-profit organization that focuses on providing the people of Pakistan with safe and easy access to international-standard educational and healthcare facilities.

Salim Habib University is located at Korangi Creek, Karachi, and spans over six acres of lush landscaping. It boasts ultra-modern infrastructure featuring a five-storey academic block with thirty-three state-of-the-art labs, a uniquely-built four-floor library, and world-class sports facilities.

The University offers Doctor of Pharmacy, BE Biomedical Engineering, BS Biosciences, BS Computer Science, BBA, BS Accounting and Finance, MBA, MS Computer Science, ME Biomedical Engineering, M. Phil. Pharmacology, and M. Phil. Biosciences programs, and ensures that its graduates emerge as well-rounded, competent individuals who harbour the passion to engage in continual learning and have the ability to give back to society and contribute to creating a brighter future for all.

Salim Habib University is recognized by the Higher Education Commission (HEC), its Engineering and Computer Science programs are accredited by the Pakistan Engineering Council (PEC) and the National Computing Education Accreditation Council (NCEAC), respectively, and its Pharmacy program is accredited by the Pharmacy Council of Pakistan (PCP).

Salim Habib University is what it is today due to the efforts of its founders, the dynamic **Dr. Muhammad Salim Habib** (Founder of TSHEF and Life Chairperson, SHU), and the charismatic **Dr. Iram Afaq** (Chief Executive Officer and Founding Member, TSHEF, Chief Executive Officer and Deputy Chairman, Barrett Hodgson Pakistan, and Chancellor, SHU). It is their lifelong dedication to their cause of educating Pakistan, and their goal of making the future of its youth brighter than the brightest star, that the University has achieved success and crossed milestones in such a short period of time.

## About The Salim Habib Education Foundation (TSHEF)

The Salim Habib Education Foundation (TSHEF), founded by Dr. Muhammad Salim Habib and Dr. Iram Afaq, believes that the progress of a nation is directly related to the quality of the educational system in place and the ability of that specific system to produce visionary leaders who can lead a generation to prosperity.

Dr. Muhammad Salim Habib, a visionary, philanthropist, and role model, and a legendary figure in Pakistan's pharmaceutical industry, was born in the humble town of Toba Tek Singh, Punjab, in 1933. He realized the severity of the issue pertaining to illiteracy in Pakistan, and since he believes that the downfall of a nation begins when it does not put all focus on educating and grooming its youth for the betterment of future generations and the advancement of society, it became his lifetime goal and passion to erase illiteracy in Pakistan and to use education to fight the ills in our nation.

He was joined in his journey by the brilliant Dr. Iram Afaq, who put in her all to make his vision of giving back to Pakistan and educating its youth a reality. She made it all possible through her passion, dedication, exemplary leadership skills, and her compelling persona that inspires people to follow her in her mission. The tireless struggles of both Dr. Muhammad Salim Habib and Dr. Iram Afaq culminated in the establishment of The Salim Habib Education Foundation in 2007, with the mission to educate Pakistan, and to develop a thirst for knowledge and the curiosity to learn more and to advance to new heights among the country's youth.

The core objective of TSHEF is to provide quality education with unmatched facilities to the students of Pakistan. The intent of the Foundation is to establish global-standard educational institutions in Pakistan which are able to get renowned local and international educationists on board in order to provide high quality education to students. The infrastructure of these institutions, developed with state-of-the-art technology, is intended to satisfy the standards of modern international educational architecture.

Basically, the Foundation wishes to provide educational facilities that are on a par with those of the most distinguished institutions around the world, so that Pakistanis who wish to go abroad for studies but cannot do so due to financial constraints or other reasons are able to receive international standard education right here in their home country.

At present, the two largest projects of TSHEF are Salim Habib University in Karachi, and the Salim Habib Education Complex in Toba Tek Singh.

Other than these two campuses that aim to spread the light of education to the youth and thus create a better tomorrow for the future generations of Pakistan, the Foundation also has further projects underway, such as the construction of a state-of-the-art Fatima School of Business Management and Computer Science, an exciting new five-storey complex at Salim Habib University, which will be a customized and digitally advanced structure.

The Foundation's future ambitions, in keeping with its vision of promoting healthcare as well as education in the country, include a mega hospital project in Karachi comprising of all medicinal specialties and facilities, a 150-bed tertiary care hospital, and a University of Emerging Science to be built on ten acres of land in Education City, Karachi. Planned projects also include a Mother & Child Health Care Hospital to be built in Toba Tek Singh, and a Nursing School/College to be established, also in Toba Tek Singh.

The Foundation also intends to build campuses of its educational institutions in cities all across Pakistan, and wishes to advance easy and safe access to top quality educational facilities all over the country.

## About the Salim Habib Education Complex

Salim Habib Education Complex, located in Toba Tek Singh, is spread across acres and acres of gorgeous greenery that houses beautiful buildings which have been designed and constructed in keeping with the standards of contemporary architecture and with the end-goal of creating an ideal learning environment.

The Complex, which caters to more than 1200 students, comprises of Salim Habib Higher Secondary School for Boys, Salim Habib Higher Secondary School for Girls, Salim Habib College for Boys, and Salim Habib College for Girls, and offers university level courses as well. It provides what it terms a real burden-free and joyful learning experience at all levels, from Montessori to Masters.

Salim Habib Education Complex aims for its students to learn through the unconventional methods of observing, listening, exploring, experimenting, and questioning, and ensures that there is continuous comprehensive evaluation of the students' development on a day-to-day basis.

It became operational on the 17th of August, 2015, which was the first day of classes. The institution is registered with the Government of Punjab and with the Higher Education Department under the provision of Section 6 of the Punjab Private Educational Institutions Ordinance 1984.

## Message from the Life Chairperson

All the ills of any nation start with the lack of education and unfortunately Pakistan is one of the nations where the literacy rate is lower than 45%. Realizing this weakness of our nation, it has been my lifelong passion and desire to do something about it. Therefore, I decided that I should put my resources and efforts to contribute towards the development of education in Pakistan. Despite numerous hurdles and loss of precious years, I continued striving to set up the Salim Habib University in Karachi.

It is a moment of immense pride for all of us, especially for me, that Salim Habib University, Karachi, is thriving and has successfully produced competent students who are now graduating, and going out into the world to bring positive changes to society that we are in dire need of. I believe that these students will be the force of change that illuminates our darkening world and creates a brighter future for all.

*"Education is the most powerful weapon which you can use to change the world."*

**Nelson Mandela**

Best of luck to the faculty and to all the students.

**Dr M Salim Habib**

Life Chairperson, Salim Habib University

## Message from the Chancellor

Education is most vital and an essential component in advancements and sustainability of a nation. It is the most valuable tool an individual can possess, and holds the key to the future. Henceforth, it is my strong belief that if we wish to succeed, we must empower our educational system. While many have spoken around the benefits of education, few have acted upon addressing this change. We believe something must be done to address this gap and ensure our youth an opportunity that can embolden their future, and it is with this aim that we established Salim Habib University. Here, we are committed to achieving this goal as we provide a foundation that cultivates passion, intelligence, and character with largely one outstanding mission - to provide Quality education for our children.

This University was created in the face of many challenges. However, we pushed hard and were persistent in our mission. We have built an institution that is predicated upon values of integrity and transparency. These core values are the basis of every project we have established, including the upcoming Fatima School of Business Management & Computer Sciences. It is a product of our sheer persistence against all odds, and it is this spirit of perseverance, loyalty, and sincerity that we aim to install in our children as well.

Our emphasis is to empower our education system and also improve the culture of our nation. We want our students to be honest and with confidence own that they belong to a Pakistani academic institution. I cannot express enough my joy that the moment has finally arrived that they are progressing ahead, equipped with the knowledge and skills we have instilled in them to embark into their professional careers.

I am proud of all my graduating students, and sincerely thank my dedicated faculty at SHU for mentoring our youth, and grooming our leaders of the future.

Now, we are at a point where our children are venturing into the world. They are winning local and international competitions, participating in global programs, and ensuring that the world hears about their success.

They are already making a mark in their respective fields, and will be leaders in business and industry. They are determined to serve our nation with optimism and pride and Salim Habib University will always be there to support and encourage our precious students.

Best of luck and endless success to Salim Habib University and its graduates,

### **Dr Iram Afaq**

Chief Executive Officer and Founding Member, The Salim Habib Education Foundation  
Chief Executive Officer and Deputy Chairman, Barrett Hodgson Pakistan  
Chancellor, Salim Habib University

## Message from the Vice Chancellor

As Vice Chancellor, Salim Habib University, I extend my heartfelt congratulations to our dear graduates on this momentous occasion of the University's 1st Convocation.

As you have now completed your degree and are preparing to embark on the next chapter of your lives, I want to remind you of the education you have received and the potential you possess. You are now equipped with the knowledge and skills necessary to take on the world and the challenges it presents, and to make a positive impact. I have every hope that you will carry forward the University's mission of fostering creativity, innovation, and excellence, while working to serve the needs of the community. You are undoubtedly the future leaders and change-makers who will shape our world and solve the challenges we face.

Remember to never stop learning, exploring, and pushing your limits. You are capable of achieving great things, and I encourage you to take risks, embrace challenges, and pursue your passions with determination and persistence.

I am confident that you will make the University proud with your deeds, actions, and accomplishments, and I wish you all the best in your future endeavors.

Congratulations, and go forth with pride and confidence!

Sincerely,

**Prof. Dr. Shakeel Ahmed Khan**

Vice Chancellor
